speech before the Mayor and Coun-cil...Object of the Freedmen's Buorder of Gen. Bennett, Commander of the District of Charleston

Georgia.

New York, Oct. 24.—Gen. Howard, commissioner of freedmen's affairs, on the 18th inst., in an address explanatory of the object of the freedmen's bureau and his present visit to the South, delivered in the presence of Mayor Macbeth, the common coincil and prominent citizens of Charleston, made some announcements of information. The General spoke of the hostile feeling toward the bureau in Charleston, which the Mayor acknowledged, and said that he had no hope for the country until citil law was completely restored. That, the General said, was the clamor of the politicians, but he had generally found the planters favorable to the continuance of the bureau's superintendence of affairs. He, himself, as well as the President, was anxious that civil law should be again untrammelled by the millitary, but the negroes having lost the protection of their masters, need some guarantee for the safety of their interests, and until the State allowed the freedmen to testify in its courts he was free to say that the bureau would continue. The President, he stated, would be very chary of surrendoring the State to civil law until a stop was put to the outrages on the blacks. The General gave encouraging replies to those planters who are seeking restoration of their property, and said he hoped soon to see wholesome laws guarantee for the freedmen passed by the legislature and the present difficulties between the two races settled. He announced his purpose of establishing courts, to consist of an army officer and two citizens, to take cognizance, for the present, of complaints by or against the colored people. Goneral Howard subsequently addressed the negroes along the coast, and took his departure for the State Capital to conter with Governor Perry.

New York; Oct. 25.—Panama dates of the 17th inst. have been received.
Royolutions in New Grenada have ended. Leaders nearly all either captured or have given themselves up.
The frigate Lancaster salled from Panama for the Sandwich Islands and San Francisco on the 12th.

South American affairs look gloomy. The presence of a Spanish fleet in Chilian waters, probably to enforce Spanish demand, leads to perplexity, and business at Valpariso is very dull. The Chilian government is actively sending arms and ammunition along the coast and the Chilian fleet have been distributed at different ports.

The Peruvian revolution continues with varying success. There is no concert of action among the revolutionary leaders and the army is short of supplies. Guano is being exchanged for coal and other commodities.

NASHVILLE, Oct. 25.—The facts and documents in the Metealf garnishee cotton case at Augusta., Ga., which will be published, will show that the representation made by a special Washington dispatch to the New York Times, to be failse in every particular.

It is claimed that the action of the War Department was based solely on legal instructions of jurisdiction, and not by any charges of wrong doing.—The question of jurisdiction is still an open one. As to the assertion that Courts were opened in Georgia is unirue, as Gov. Johnson's proclamation opening them was issued on the 7th—four days after the date of the cotton order. Metealf was the rebel cotton agent at Augusta.

New York, Oct. 25.—In the case of the people vs Peter R. Strong in which the defendant was charged with procuring an abortion on the person of his wife, and which has excited so much interest, the judge charged the jury that it was their duty to acquit the prisoner, which the jury did.

There was another government sale of vessels at the Brooklyn Navy Yard.—Some of the vessels brought very low prices, and there was very little desire on the part of bidders to buy.

A special dispatch to the Evening Post, dated Washington, Oct. 25, says:
The War Department has decided, with the approval of General Grant, not to restore the property of ex-Gov. Henry A. Wise, of Virginia, Gen. Terry's action in refusing to give up the estate is fully sustained. Wise's house is still used as a school for the children of the freedmen, and John Brown's daughters are the teachers.
